

**TEXAS DEPARTMENT OF HEALTH  
AUSTIN TEXAS  
INTER-OFFICE**

**TO:** WIC Regional Directors  
WIC Local Agency Directors

**FROM:** Barbara Keir, Director {Original Signed}  
Division of Public Health Nutrition and Education  
Bureau of Nutrition Services

**DATE:** April 24, 2003

**SUBJECT:** Enfamil AR Powder

---

Mead Johnson has notified the Texas WIC Program that Enfamil AR powdered formula will not be manufactured again due to a continued shortage of raw materials. Effective immediately they have cancelled plans to produce this product in the powdered form. Enfamil AR ready-to-use (RTU) will continue to be manufactured and is readily available at stores. A prescription with a valid diagnosis is still required to issue Enfamil AR RTU to WIC participants.

If you have any questions, or require further information, please contact Sandra Brown, Clinical Nutrition Specialist, at 512/458-7111, extension 3830 or email at [sandra.brown@tdh.state.tx.us](mailto:sandra.brown@tdh.state.tx.us).
